Hydraulic cylinders of fruit and vegetable harvesters

Runhe Hydraulic's fruit & vegetable harvester hydraulic cylinders are light-duty precision units for lifting, trimming and picking mechanisms. Anti-dust, corrosion-resistant and low-noise, they feature custom strokes, easy installation and stable operation. Adapted to field conditions, with OEM/ODM support, they perfectly match all agricultural fruit and veg harvester models for reliable performance.

Product Basic Information

Item	Specification
Bore Size	40/50/63/80/100/125 mm
Rod Size	25/32/40/50/63
Stroke	100/200/300/400/500 mm (Support customized non-standard itineraries)
Working Pressure	16-25 MPa
Installation method	Earrings / Pins / Flanges
Cylinder Barrel	45#
Piston Rod	40Cr
Seal	Nitrile rubber / Polyurethane

Note: If you require other specifications of hydraulic cylinders, please contact us.

Product Advantages

Runhe's fruit & vegetable harvester hydraulic cylinders stand out for light-load precision and field-adapted durability. Anti-dust seals, corrosion-resistant plating and low-noise operation ensure stable performance for lifting/trimming. Customizable specs, easy installation and OEM/ODM support fit all harvester models, delivering reliable efficiency for agricultural fruit and veg harvesting work.
